

Short listed athletes for the 2017 cadet, junior and U21 European Championships

Dear All, please find below the short listed athletes (*Highlighted in GREEN*) for the 16 October final selections for the cadet junior and U21 European championships. Well done to all who competed but the very nature of competition means we cannot always win. The rankings were calculated on wins, points 'for', 'against' and video evidence. In some cases athletes are ranked numbers one or two, however, the point scoring is zero to low scoring. Winners of categories but low point scorers may not be considered for selection for this reason whereas some athletes who have lost but are scoring points have been short listed (*i.e. M. Edwards*). Ultimately we need point scorers with more urgency needed in some of the observed fights. Please note; Where a '0' or blank in the ranking column is present, there is no ranking for that category on this occasion. This would be for little or no points scored and extended periods of inactivity during bouts. In the case of a repeat performance no individual will be selected in those cases.

Final selection will follow a similar format with the new scores be added to the table. The table provides a snapshot of where you stand now on the England rankings and provides goal setting opportunities for athletes and coaches. Video analysis will be considered and will play a key part in the finalising of selection as statistics provide performance data but determination, tenacity, will to win, technique, tactical awareness can only be assessed by observation and a judgement made by the elite performance coaches.

I would like to encourage the athletes who did not gain short listing on this occasion to reflect on their performances and work with their coaches to set goals for development.

Yours sincerely

Willie Thomas 7th Dan
